3   Payment Terms

These Payment Terms supersede diverging provisions of the "General Terms and Conditions IT Services".

- Telekom sends customers a monthly invoice to their email address. Customers have the opportunity to view the amount due online in the IoT Portal.

- All monthly fees are billed on a daily pro rata basis starting with the first day the service was activated when that day is not the first day of the month. Monthly fees are the accumulated fees for any active plans with associated additional device connections and any purchased options.

- Invoiced amounts have to be paid to the indicated bank account within 30 days upon receipt.

- Furthermore, the general terms and conditions apply as contractually included.
